

# ROTARY ROUND-UP

Kris Becker, President 2017-2018      Celebrate Rotary      Number 17 for The Week of October 26, 2017

## Announcements

Robert Minvielle announced the date for the Christmas Party, it will be held on December 7th at Jen-

nifer Thomasons house, mark the date on your calendar.

President was giving away two tickets to the Palate and Palette the annual wine, cheese and art event sponsored by the St. Paul's and Paul's Episcopal church. Always a nice event.

## Pledge, Prayer and Song

President Kris brought the meeting to order, and called on Past President, Aaron Popejoy to lead the Pledge, followed with Ed Snively offering the prayer and the song was led by President Kris.

### POT

The Pot was won by Ed McGrew, Jennifer you missed another one. This time he did not draw the red chip.

# PROGRAM

The program was our very own the Hon. Chris Plourd, who gave us an excellent program on Physical and Forensic Science. Chris has been involved in the fore front of Forensic science and currently sits on The Organization of Scientific Area Committees for Forensic Science, the current governing body for standardizing the process for collecting and using DNA, Facial Recognition, Chemical and CSI Investigation. The body also oversees the Standards Approval Process.

William Sounder started looking at Forensic Science when he inspected the ladder used in the Lindberg Kidnapping in 1935. In 2005 a study concluded that Recognition. 63% of voice test and 100% of Hair and writing test were accurate, where as Eye Witness, Biology Matches needed more standardization. OSAC was formed to help with the process of developing a system for Standardizing methodology, especially in DNA, Facial, CSI and Chemical use in trials.

OSAC has over 600 members and include a wide body of experts and novices, this body of Commit-

tee also includes Fire Investigations.

After the presentation Chris opened up the floor for questions, one of which included the ability to match dog poop to a dog. The short answer is dog DNA can be matched to a specific.

Thanks Chris. This was a very informative and entertaining program.

## Visiting Rotarians and Guests of Rotarians

We had one visiting Rotarian, Richard Acosta from the Holtville Club. It was also nice to have the Commander with us today.

Trish McNeece introduced, her guest, Joe Wilson.

Welcome to Rotary.

## WHINING AND FINING

Whining and fining there was none, President Kris wanted to allot maximum time to our program.
